PROFESSIONAL SUMMARY

- A proactive Full Stack Developer. Currently seeking an opportunity to apply my expertise and contribute to impactful projects in a forward-thinking organization.

WORK EXPERIENCE

Front-end developer Intern | Governsafe | Australia

Remote
April-October 2024

- Engineered highly responsive and interactive web interfaces using React, HTML, CSS, and JavaScript, leading to a forty percent increase in user satisfaction scores.
- By focusing on optimizing the user experience, revamped key website features, including navigation and search functionality, making them more intuitive and accessible across all devices.
- Enhanced ten critical features by integrating interactive elements such as adaptive forms, real-time feedback, and seamless animations, improving both usability and user engagement.
- Collaborated closely with UX/UI designers and back-end developers to ensure consistency and performance, leading to a measurable improvement in overall functionality and user retention.
